

**REVENANT'S
TOME**
(UNNATURAL REVIVAL)
ANCIENT ARTIFACT

TEMPORARY TREASURE GLYPH

This figure may use this tome after revealing an order marker on its Army Card. Before taking that turn with this figure, place one previously destroyed Unique figure from your Army onto any empty space(s) within 5 clear sight spaces of this figure. Immediately make a normal attack with the placed figure, then destroy the placed figure immediately afterward. While the placed figure is on the battlefield, all of its special powers are considered to be negated. The placed figure is considered to have a Life of 1, and it is not affected by any special powers on any Army Card or Glyph while on the battlefield.

Keep this card handy as a reference for the Revenant's Tome Treasure Glyph.

Rules for Treasure Glyphs can be found in the Heroscape D&D Master Set: Battle for the Underdark. Or go to www.heroscape.com.

The background is a large red hexagon with a pattern of smaller, darker red hexagons. In the center is a large, horizontal oval with a golden, metallic border. Inside this oval, the word "heroScape" is written in a stylized font. "hero" is in a dark blue, lowercase, serif font, and "Scape" is in a larger, dark blue, uppercase, serif font. The letters are set against a bright orange and yellow flame-like background within the oval.
